THOMAS SMITH,
THOMAS TROTTER, } Auditors.

* A year's free schooling was given to the three children whose attendance had been most regular, viz., to John Farmer and Harry Jordan, both of whom had been present every school attendance—446 times—and to Stanton Brown who had made 445 attendances, the fees being paid out of Lord Crewe's Benefaction.

The school was examined by H.M. Inspector on the 27th June, and the Grant obtained for the year amounts to £92 3s. 4d.

The principal room having become overcrowded, it has been found necessary to enlarge the School. The money for the purpose will be advanced by the Managers, free of interest, as a loan to the School funds.

W. G. COLE,
W. THOMPSON,
W. WILDMAN, } Local Managers.

NEWBOLD VERDON SCHOOL PENNY BANK.

ESTABLISHED FEBRUARY 7th, 1876.

W. G. COLE, SECRETARY,

[SPENCER BROS., PRINTERS, LEICESTER]

3 May 1886.

T 39124 } James Montagnés Charity
Parish of Newbold Verdon in the county of Leicester.

The undersigned being one of the Trustees submits the following Statement

1. That the work required to render the Charity Land suitable for allotments is now completed with the exception of a wire fence, which is to run along by the side of the brook at the lower end of one of the closes.

2. That the allotments have already been entered on.

3. That the Trustees are now in the position to give an approximate estimate of the cost which will not exceed £50 nor be less than £40.

viz Draining etc according to Contract	£25.
marking out allotments —	7 " 10
Carpenter. not less than	7 " 0 " 0
	39 " 10

Besides which there is the wire fencing & sundries. — —.

Under the foregoing circumstances the undersigned makes application to the Board to authorise the Trustees to contract a loan of not more than £50 on the terms of the repayment of principal & interest within 12 ~~years~~ 15 years. — the exact sum to be subsequently specified to the Inspecting Commissioners.

(2 enclosures which it is requested may be returned).

That in this case the recipients of the Charity will not be deprived of its benefits to any material extent.

11th May 1886

Letter to Rev Hector Nelson abt Miss Griffin.

Q 1324 Jan 31 1887

Sir

In reply to yr letter of the 27th inst I desire to ask the Director General of the Ordnance Survey for a more complete investigation than has yet been made & at the same time I beg to be allowed to assure him that there is no foundation whatever for the surprising statement contained in the aforesaid letter "that in 1884 when the Survey of the Locality was made the path in question was a well marked one with stiles & gates throughout".

I have to point out that my Contention is not merely that there is no public foot path across the Halifax Farm but that there neither is now nor was in 1884 ~~a foot path over a considerable portion~~ a foot path at all over a considerable portion of the ground where the Surveyors have most unaccountably represented one as existing.

If I may be allowed to refer you to the rough tracing which accompanied my letter of the 7th Dec my meaning will be more easily understood.

There are, I repeat foot paths with stiles & gates leading to the Farmhouse itself which give the Tenants access on the one side to the Village of N.V. on the other to Merrilees Lane but all that portion of the foot path which on the Ordnance map is made to cross the Ox Close & Poppets Close & which I have marked on the tracing in red did not exist in 1884 any more than it exists now & at the point where the path according to the map is supposed to pass from the one Close into the other there neither is now nor was in 1884 either stile or gate but there has stood there for at least 5 years a high dead fence which separates effectually the one Close from the other.

There is therefore, I confidently submit, no such pathway through these two fields as in accordance with the rules of the Ordnance Survey should be marked on the Ordnance maps it issues.

As however no alteration of any kind has taken place with regard to

the path & fence in question since the Survey was made in 1884 I may venture to add it would seem that if the D.G ~~should have the goodness~~ thought fit to let an Officer of superior rank to the one who is responsible for the error then made — ~~to visit the premises of visiting~~ the spot, he would be able to judge for himself ~~as to the truth of my statement facts on which my statement is based~~ by personal inspection as to the correctness of my statement

On Her Majesty's Service
The Director of the Ordnance Survey
Southampton.

---

4 Feb 1887

I should be glad if you could ~~can you~~ make it convenient to come over to N to draw up a will for one of my parishioners Widow Sarah Wright who is at present living with her brother Wm Statham at the farther end of the village. She has asked me to write to you in her behalf before hand

It will perhaps save you some trouble if I explain what I believe her wishes to be

Her furniture & her clothes she leaves to Ann Statham her brother William's wife

Her money —— survivors? See Letter of Jan 25

Widow Wright formerly lived at Bosworth as Housekeeper in Mr Hollies family & I wrote by her desire to Mr Hollies on this subject on the 25th ult — the very day before his death

Arthur Loseby Esq
Market Bosworth
Hinckley

P.S her brother Wm Statham is in very bad health & not likely to survive Mrs Wright & on this account she wishes to associate his wife Ann Statham with him in the first of the shares, so that she may not be deprived of a share in the event of her husband's death.

Feb 10 1887

I have seen Mr Arnold since I wrote to you on the 21st ult & it seems most probable from what he tells me that you will not have any T.T to pay for the Hook. I therefore deduct 1/0 as yr share of the

1/7 Land Tax ~~Land~~ from the Balance of 12/- remaining due to you for the Stay & enclose herewith 11/0 which you will be so good as to acknowledge.

Mr J. S. Bevins
The Hall Farm
Ingarsby. Leicester

2 March 1887.

I beg to enclose my annual Statement of the expenditure of the portion of Lord Crewe's Benefaction which is distributed among our Scholars in the way of rewards & I shall be obliged if you will be so good as to lay it before the Trustees, as usual, at their Meeting.

I wish also to obtain the sanction of the Trustees to the appropriation of a part of the annual endowment (as distinct from the children's Benefaction) to the gradual cancelling of the debt on the School funds, the endowment to be so employed only when the yearly accounts show a balance remaining in favour of the School.

The debt amounting to £171.16.7 was incurred owing to the enlargement of the School in 1884, when it became necessary to make an addition of 20 feet in length to the principal room

The sum required for the enlargement I advanced myself (without interest) in the belief that if the School continued to prosper, as I confidently expected it to do, the Loan could be repaid by degrees out of the balance of the income over the expenditure

S. Rowlandson Esq
The College
Durham.
