Hot off the press

BUDDING hacks have a chance to try their hand at being newshound in the quiet village of Newbold Verdon.

Because three eager locals have set up the village's very first community magazine containing news, pictures, adverts and club diaries — and called it "Verdon Views."

The editorial team — Colin Chappell (a computers man with British Shoe), housewife Sue Cook and plumbing lecturer John Crossdale — have just put their second edition 'to bed' after tough tipex, pasting and editing work in Sue's front room.

They now look for more involvement in the venture, and welcome newcomers to the next meeting at Newbold Primary School, 8pm, January 5, 1988. Hardly a case of 'hold the front page', but it's a start . . .

Don't let this become your winter of discontent

SALT SEASON

THIS year the County Council has allocated

Hassle-free hunting?
